

WESTERN EQUIPMENT LTD.

INDUSTRIAL, SAFETY & RIGGING | QUALITY & SERVICE SINCE 1947 | PROUDLY CANADIAN

YOU HAVE HAND SANITIZER AND PPE — BUT ARE YOU COMPLETELY PREPARED?

A sudden cardiac arrest (SCA) emergency can happen in a split second to anyone of any age or fitness level. Be ready to protect your employees and customers. A rescuer armed with an automated external defibrillator (AED) who performs high-quality CPR is a victim's best chance for survival until medical personnel arrive.

ZOLL's proprietary Real CPR Help® technology guides rescuers to perform high-quality CPR in accordance with the most recent American Heart Association (AHA) guidelines for depth and rate of chest compressions. The innovative, intuitive design and enhanced features of ZOLL® AEDs give unexpected heroes the confidence and knowledge needed to treat sudden cardiac arrest. The stakes are too high to be caught unprepared.

- **Smart:** No other AEDs support rescuers with integrated, real-time feedback on compression rate and depth like ZOLL AEDs do.
- **Ready:** Five-year battery and pad life means fewer replacements and a low total cost of ownership. Your AED will always be ready for the rescue.
- **Trusted:** A pioneer in resuscitation technology, ZOLL has been empowering first responders and unexpected heroes for more than 25 years.
